What is a Tablescapes?

A Tablescapes is an arrangement of items used to decorate tables and other surfaces and can be displayed in any room. A Tablescapes sets the mood for what is to come, like the story of a wedding, of a new season, or of a special time in a person's life. Unlike floral designers, who usually arrange bouquets inside containers, tablescapes artists have no boundaries and may use an entire space up to 20 feet or more. As well as designing with flowers, tablescapes artists style with grasses, limbs, wild plants and household decorations.
